PRECONTRACT APPROVAL RECORD (PART TWO)

CONTRACT

TRW, INC.

The services and equipment being procured by this Contract No. TR-6303 **DEFINITIVE** are in furtherance of the GENERAL R&D Program(s), the nature of which cannot be publicly disclosed for security reasons. The Contracting Officer therefore determines that this procurement must be accomplished by negotiations pursuant to the authority of Section 3(a) of PL 81-110 and Class Determination and Finding, OXC 2122, signed by the DDCI on 15 October 1961.

The following comments describe the procurement hereby effected, the terms and provisions generally of this contract/amendment, and a resume of major issues negotiated:

This contract is issued to cover the contract for computer services rendered under . Under another contract with Hughes Aircraft Company, aircraft vulnerability was being performed by Hughes for which required the use of computer services. It was determined at the time of negotiating that contract, that it would be less expensive for Hughes to use the computer facilities at TRW on a non-interference basis. This decision resulted in a reduction in the cost of the Hughes contract.

The work was accomplished at the TRW/Agency computer facilities under the direction of . Costs involved were kept separate from other work being performed between TRW and PD/OL. As such, such work did not interfere with other Agency contracts and consequently, it did not increase or decrease the cost thereof. This has been verified by , OSI, , DCAA Auditor. further verified this with ICAD. also checked the cost involved and indicated that they were more than reasonable and that the services performed were less expensive than that being performed by TRW for other customers. As a result of the above, it is considered that the price agreed to is reasonable and that in this particular instance TRW was the most logical, competent, source to contract with considering the security of the program and the best interest of the Government. OSI as indicated that the work has been satisfactorily performed and therefore the invoice, when received, may be paid.
